INTRODUCTION AND RESEARCH

The Need for Practice

In order to be successful in today's mathematics classroom, students must deeply understand both concepts and procedures so that they can discuss and demonstrate their understanding. Demonstrating understanding is a process that must be continually practiced in order for students to be successful. According to Marzano (2010, 83), "practice has always been, and will always be, a necessary ingredient to learning procedural knowledge at a level at which students execute it independently." Practice is especially important to help students apply their concrete, conceptual understanding to a particular procedural skill.

Understanding Assessment

In addition to providing opportunities for frequent practice, teachers must be able to assess students' understanding of mathematical procedures, terms, concepts, and reasoning (Kilpatrick, Swafford, and Findell 2001). This is important so that teachers can adequately address students' misconceptions, build on their current understanding, and challenge them appropriately.

Assessment is a long-term process that often involves careful analysis of student responses from a lesson discussion, project, practice sheet, or test. When analyzing the data, it is important for teachers to reflect on how their teaching practices may have influenced students' responses and to identify those areas where additional instruction may be required. In short, the data gathered from assessments should be used to inform instruction: slow down, speed up, or reteach. This type of assessment is called *formative assessment* and is used to provide a seamless connection between instruction and assessment (McIntosh 1997).

HOW TO USE THIS BOOK

180 Days of Math for Second Grade offers teachers and parents a full page of daily mathematics practice activities for each day of the school year.

Easy to Use and Standards-Based

These activities reinforce grade-level skills across a variety of mathematical concepts. The questions are provided as a full practice page, making them easy to prepare and implement as part of a classroom morning routine, at the beginning of each mathematics lesson, or as homework.

Every second-grade practice page provides 8 questions, each tied to a specific mathematical concept. Students are given the opportunity for regular practice in each mathematical concept, allowing them to build confidence through these quick standards-based activities.

Question	Mathematics Concept	NCTM Standard
1	Number Sense	Understands numbers, ways of representing numbers, relationships among numbers, and number systems
2	Addition	Understands meanings of operations and how they relate to one another; Computes fluently and makes reasonable estimates
3	Subtraction	
4	Algebraic Thinking	Understands patterns, relations, and functions; Represents and analyzes mathematical situations and structures using algebraic symbols
5	Geometry	Analyzes characteristics and properties of two-dimensional and three-dimensional geometric shapes and develops mathematical arguments about geometric relationships
6	Measurement	Understands measurable attributes of objects and the units, systems, and processes of measurement; Applies appropriate techniques, tools, and formulas to determine measurements
7	Data Analysis	Formulates questions that can be addressed with data and collects, organizes, and displays relevant data to answer them; Selects and uses appropriate statistical methods to analyze data
8	Word Problem/Logic Problem or Mathematical Reasoning	Builds new mathematical knowledge through problem solving; Solves problems that arise in mathematics and in other contexts

Standards are listed with the permission of the National Council of Teachers of Mathematics (NCTM). NCTM does not endorse the content or validity of these alignments.

HOW TO USE THIS BOOK (cont.)

Using the Practice Pages

As outlined on page 4, every question is aligned to a mathematics concept and standard.

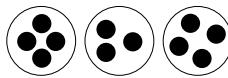

Practice pages provide instruction and assessment opportunities for each day of the school year.

Each question ties student practice to a specific mathematics concept.

DAY **4**

NAME: _____

DIRECTIONS Solve each problem.

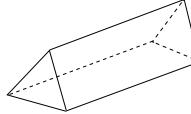

1. Is this a fair share?
Circle: yes no

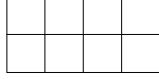

2. $6 + 2 =$ _____

3. Subtract.

 $\boxed{\quad} - \boxed{\quad} = \boxed{\quad}$

4. $\boxed{\quad} + 1 = 4 + 4$

5. Color a base of the solid.

6. Write the area.

area = _____ squares

7. Toy Train Sales Last Week

Mon.	long long long
Tues.	long long long long
Wed.	long
Thurs.	long long long long long
Fri.	long long
Sat.	long long long
Sun.	long long long

© Shell Education

Using the Scoring Guide

Use the scoring guide along the side of each practice page to check answers and see at a glance which skills may need more reinforcement.

Fill in the appropriate circle for each problem to indicate correct (☺) or incorrect (☹) responses. You might wish to indicate only incorrect responses to focus on those skills. (For example, if students consistently miss numbers 2 and 6, they may need additional help with those concepts as outlined in the table on page 4.) Use the answer key at the back of the book to score the problems, or you may call out answers to have students self-score or peer-score their work.

HOW TO USE THIS BOOK *(cont.)*

Diagnostic Assessment

Teachers can use the practice pages as diagnostic assessments. The data analysis tools included with the book enable teachers or parents to quickly score students' work and monitor their progress. Teachers and parents can see at a glance which mathematics concepts or skills students may need to target in order to develop proficiency.

After students complete a practice page, grade each page using the answer key (pages 191–205). Then, complete the *Practice Page Item Analysis* (page 7, or pageitem.pdf) for the whole class, or the *Student Item Analysis* (page 8, or studentitem.pdf) for individual students. These charts are also provided as both *Microsoft Word*® files (pageitem.doc and studentitem.doc) and as *Microsoft Excel*® files (pageitem.xls and studentitem.xls). Teachers can input data into the electronic files directly on the computer, or they can print the pages and analyze students' work using paper and pencil.

To complete the Practice Page Item Analysis:

- Write or type students' names in the far-left column. Depending on the number of students, more than one copy of the form may be needed or you may need to add rows.
- The question numbers are included across the top of the chart. Each item correlates with the matching question number from the practice page.
- For each student, record an *X* in the column if the student has the item incorrect. If the item is correct, leave the item blank.
- If you are using the *Excel* file, totals will be automatically generated. If you are using the *Word* file or if you have printed the PDF, you will need to compute the totals. Count the *Xs* in each row and column and fill in the correct boxes.

To complete the Student Item Analysis:

- Write or type the student's name on the top row. This form tracks the ongoing progress of each student, so one copy per student is necessary.
- The question numbers are included across the top of the chart. Each item correlates with the matching question number from the practice page.
- For each day, record an *X* in the column if the student has the item incorrect. If the item is correct, leave the item blank.
- If you are using the *Excel* file, totals will be automatically generated. If you are using the *Word* file or if you have printed the PDF, you will need to compute the totals. Count the *Xs* in each row and column and fill in the correct boxes.

Practice Page Item Analysis

Directions: Record an *X* in cells to indicate where students have missed questions. Add up the totals. You can view:
(1) which questions/concepts were missed per student; (2) the total correct score per student; and (3) the total number of students who missed each question.

HOW TO USE THIS BOOK *(cont.)*

HOW TO USE THIS BOOK (cont.)

Student Item Analysis

Directions: Record an *X* in cells to indicate where the student has missed questions. Add up the totals. You can view: (1) which questions/concepts the student missed; (2) the total correct score per day; and (3) the total number of times each question/concept was missed.

HOW TO USE THIS BOOK *(cont.)*

Using the Results to Differentiate Instruction

Once results are gathered and analyzed, teachers can use the results to inform the way they differentiate instruction. The data can help determine which concepts are the most difficult for students and which need additional instructional support and continued practice. Depending on how often the practice pages are scored, results can be considered for instructional support on a daily or weekly basis.

Whole-Class Support

The results of the diagnostic analysis may show that the entire class is struggling with a particular concept or group of concepts. If these concepts have been taught in the past, this indicates that further instruction or reteaching is necessary. If these concepts have not been taught in the past, this data is a great pre-assessment and demonstrates that students do not have a working knowledge of the concepts. Thus, careful planning for the length of the unit(s) or lesson(s) must be considered, and extra frontloading may be required.

Small-Group or Individual Support

The results of the diagnostic analysis may show that an individual or small group of students is struggling with a particular concept or group of concepts. If these concepts have been taught in the past, this indicates that further instruction or reteaching is necessary. Consider pulling aside these students while others are working independently to instruct further on the concept(s). Teachers can also use the results to help identify individuals or groups of proficient students who are ready for enrichment or above-grade level instruction. These students may benefit from independent learning contracts or more challenging activities. Students may also benefit from extra practice using games or computer-based resources.

Teacher Resource CD

The Teacher Resource CD provides the following resources:

- NCTM Correlations Chart
- Reproducible PDFs of each practice page
- Directions for completing the diagnostic Item Analysis forms
- Practice Page Item Analysis PDF, *Word* document, and *Excel* spreadsheet
- Student Item Analysis PDF, *Word* document, and *Excel* spreadsheet

HOW TO USE THIS BOOK *(cont.)*

NCTM Standards

The lessons in this book are aligned to the National Council of Teachers of Mathematics (NCTM) standards. The standards listed on page 4 support the concepts and skills that are consistently presented on each of the practice pages.

Standards Correlations

Shell Education is committed to producing educational materials that are research and standards based. In this effort, we have correlated all of our products to the academic standards of all 50 states, the District of Columbia, and the Department of Defense Dependent Schools, as well as to the Common Core Standards.

How to Find Standards Correlations

To print a customized correlation report of this product for your state, visit our website at <http://www.shelleducation.com> and follow the on-screen directions. If you require assistance in printing correlation reports, please contact Customer Service at 1-877-777-3450.

Purpose and Intent of Standards

The No Child Left Behind legislation mandates that all states adopt academic standards that identify the skills students will learn in kindergarten through grade twelve. While many states had already adopted academic standards prior to NCLB, the legislation set requirements to ensure the standards were detailed and comprehensive.

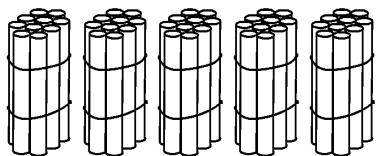

Standards are designed to focus instruction and guide adoption of curricula. Standards are statements that describe the criteria necessary for students to meet specific academic goals. They define the knowledge, skills, and content students should acquire at each level. Standards are also used to develop standardized tests to evaluate students' academic progress.

Teachers are required to demonstrate how their lessons meet state standards. State standards are used in development of all of our products, so educators can be assured they meet the academic requirements of each state.

NAME: _____

DIRECTIONS Solve each problem.

1. Write the numeral. Each bundle has 10 sticks.

2. Add.

$$\boxed{\quad} + \boxed{\quad} = \boxed{\quad}$$

3. Subtract.

41	42	43	44	45	46	47	48	49	50

7. ☺☺

5.

True or false? A vertex is formed when two sides of a plane shape meet.

8. ☺☺

6. Circle the item that holds the least water.

7. School Bags in Class

A rolling pack has 2 wheels. How many rolling pack wheels are in the classroom?

8. Brittany gets \$4.00

in allowance each week. She saves $\frac{1}{4}$ of it and spends the rest of it. How much money does she spend each week?

Total

/ 8

ANSWER KEY

Day 1

1. 50
2. $4 + 3 = 7$
3. $5 - 3 = 2$
4. 18
5. sphere
6. 7
7. Gail: corn
Tammy: peas
Marcia: carrots
Trish: broccoli
Terri: corn
8. 11

Day 2

1. 100
2. 9
3. 3
4. 10
5. square
6. clock
7. 6
8. $17 - 9 = 8$ or $17 - 8 = 9$

Day 3

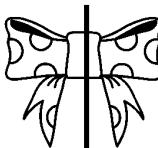

1. $\frac{1}{2}$
2. $4 + 2 = 6$
3. 2
4. 0
5. 4; 4
6. true
7. yes
8. December

Day 4

1. no
2. 8
3. $6 - 3 = 3$
4. 7
5. One triangular face should be colored.
6. 8
7. 3
8. 16

Day 5

1. 27
2. $4 + 4 = 8$
3. 5
4. B
- 5.

Day 6

1. 67
2. 9
3. 1
4. 6
5. 4
6. February
7. fish
8. yardstick

Day 7

1. 9, 17, 22, 34
2. $2 + 5 = 7$
3. 1
4. —
5. rectangle
6. the solid on the left
7. 9
8. 24

Day 8

1. 3 of the cups should be circled.
2. 14
3. $4 - 1 = 3$
4. 8
5. can of juice
6. 2 m
7. 2
8. $10 + 8 = 18$

Day 9

1. 39
2. $3 + 5 = 8$
3. 1
4. 3
5. true
6. ice cream cone
7. iris
8. 468

Day 10

1. 25
2. 11
3. 4
4. The following numbers should be colored: 10, 20, 30, 40, and 50
5.
6. the middle sphere
7. ~~||||~~ ||||
8. 2

Day 11

1. 70
2. $4 + 1 = 5$
3. 3
4. 60
5. One face of the solid should be colored.
6. 3:00
7. Movies: 13
Restaurant: 9
Park: 12
8. 2

Day 12

1. tens
2. 12
3. $5 - 4 = 1$
4. 5
5. hexagon (left image)
6. bottom row
7. Max
8. 87

ANSWER KEY

(cont.)

Day 13

- $\frac{1}{4}$
- $3 + 4 = 7$
- 5
- 3
- true
- 3
- 7.

	Hamster	Dog	Fish	Cat
Mary	X		X	
Julia	X	X		X
Evan	X	X		X

- 1 quarter and 1 penny

Day 14

- yes
- 11
- 0
- 7
- cylinder (left image)
- 4
- \$25
- banana and apple or two bananas

Day 15

- 41
- $2 + 6 = 8$
- 9
- 2; 1
- 
- Two lines of symmetry should be drawn.
- 5:00 should be shown on the clock.
- February
- cylinder

Day 16

- 39
- 16
- $4 - 2 = 2$
- 8
- 3
- Wednesday
- 8
- 3 feet

Day 17

- <
- $5 + 2 = 7$
- 1
- 8
- all but the circle and oval
- 4
- pepperoni
- 11 inches

Day 18

- 4 frogs
- 8
- 3
- 8
- the jar
- the camel
- 6
- 16

Day 19

- 67
- 6
- 0
- 0
- The square should be colored.
- false
- 7.

	April	May
Sue	13	16
Toni	14	12

Day 20

- 10
- nine
- $5 - 2 = 3$
- 8
- rectangular prism (left image)
- the book
- 8 years

7. yes
8. 19

Day 116

1. 194
2. 70
3. 10
4. 8
5. no
6. November
7. swimming
8. 36

Day 117

1. >
2. 56
3. 16
4. 7
5. The triangle should be colored.
6. 4
7. 9
8. 12

Day 118

1. 2 rectangles should be colored.
2. 43
3. 5
4. 8
5. yes
6. less than 1 meter
7. 

8. 4

Day 119

1. fifty-three
2. 12
3. 24
4. 37
5. A rectangle should be drawn.
6. the fox
7. 3
8. 18

Day 120

1. 20
2. 81
3. 11
4. 60
5. pyramid (right image)
6. cup
7. 20
8. $49 - 23 = 26$ or
 $49 - 26 = 23$

ANSWER KEY *(cont.)*

Day 121

- 73
- 6
- 24
- 45
- the ball
- 30
- 1
- 3:30 P.M.

Day 122

- 150
- 73
- 10
- or +
- true
- The longer bar should be circled.
- \$5.00
- 75

Day 123

- $\frac{1}{2}$ or one-half
- 12
- 43
- 5
- false
- 3
- \$8.00
- 84

Day 124

- 2 groups of 3 should be circled.
- 82
- 4
- 28
-  A vertical line of symmetry should be drawn the center of the bear.
- The larger rectangle should be colored.
- 20
- 30 feet

Day 125

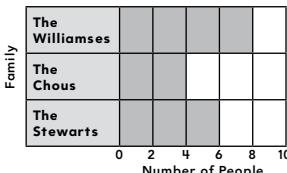

- 20
- 10
- 25
- 
- cone (right image)
- The clock should read 4:30.
- 4
- 5

Day 126

- 6; 6
- 52
- 26
- 8
- none or zero
- May
- 14
- $73 + 17 = 90$

Day 127

- 473, 552, 791, 827
- 96
- 10
- 5
- The quadrilateral should be colored.
- 5
- Family Members**

8. 750

Day 128

- 3 cups should be circled.
- thirty-eight
- 17
- 1
- the basket
- 1 m
- no
- 26

Day 129

- sixty-two
- 74
- 8
- 43
- A square should be drawn.
- The clock should read 2:00.
- 3
- 60

Day 130

- 4th
- 33
- 13
- 20
- 2 triangles (first and last images)
- cup
- 18
- 258

Day 131

- 217
- 12
- 3
- 49
- Any one surface may be colored.
- 2:00
- 8
- Ralph: scooter
Ian: skateboard
Darren: bike

Day 132

- 80
- 85
- 5
- 8
- octagon
- the trash
- 7
- no

ANSWER KEY *(cont.)*

Day 133

1. $\frac{1}{4}$
2. 61
3. 13
4. 2
5. false
6. 1.5 or $1\frac{1}{2}$
7. 30
8. cone, sphere, cylinder

Day 134

1. 1 group of 5; 2 left over
2. 50
3. 2
4. 91
5. 
6. 16
7. 2
8. 50¢

Day 135

1. 12
2. 13
3. 39
4. 
5. Any face (triangular side) of the solid may be colored.
6. 4
7. 16
8. 62¢

Day 136

1. 3 tens; 1 one
2. 37
3. 46
4. 5
5. 4
6. Friday
7. 
8. 8

Day 137

1. 40
2. 130
3. 11
4. +
5. 6
6. 4
7. 16
8. $35 + 21 = 56$ or $21 + 35 = 56$

Day 138

1. 2 hats should be circled.
2. 76
3. 33
4. 16
5. the ball
6. the dinosaur
7. 10
8. 5:00 P.M.

Day 139

1. 485
2. 84
3. 27
4. 55
5. hexagon (left image)
6. taller
7. hamster and cat
8. 44

Day 140

1. third
2. 88
3. 41
4. 90 books
5. rhombus (center image)
6. the chicken
7. \$40.00
8. 46

Day 141

1. 452
2. 12
3. 17
4. 84
5. quadrilateral or trapezoid
6. 2 hours
7. 4
8. 735

Day 142

1. 90
2. 128
3. 25
4. 9
5. octagon
6. the mug
7. 6
8. bathing suit

Day 143

1. $\frac{1}{2}$
2. 79
3. 44
4. 1
5. false
6. fall
7. 4
8. 6 (The different combinations are 347, 374, 473, 743, 734, and 437.)

Day 144

1. 4 groups of 3 circles should be circled.
2. 99
3. 35
4. 18
5. vertical line
6. 8
7. 1
8. 21

ANSWER KEY *(cont.)*

Day 145

- 14
- 12
- 17
- A circle should be drawn.
- cylinder (left image)
- The clock should read 10:30.
- Favorite Game**

	Jan	Ben	Tori
Jump rope	X	X	X
Kickball		X	X
- 4

Day 146

- 5 tens; 7 ones
- 89
- 12
- 11
- yes
- September
- 5
- 698

Day 147

- 827, 672, 439, 281
- 98
- 49
- 2
- The triangle should be colored.
- the 5-cube solid (right image)
- Karen
- $6 + 6 = 12$

Day 148

- 4 balloons should be circled.
- 98
- 21
- 15
- yes
- the drum
- yes
- 39

Day 149

- seventeen
- 87
- 31
- 46
- A hexagon should be drawn.
- The clock should read 1:00.
- 20
- sphere and cone

Day 150

- 16th
- 87
- 11
- The following squares should be colored: 4, 8, 12, 16, 20, 24, 28, 32, 36, 40, 48
- 2 hexagons (top left and bottom center)
- The ball should be circled.
- 8
- 48

Day 151

- 444
- 13
- 24
- 49
- Any 1 surface should be colored.
- 31
- yes
- 66

Day 152

- 50
- 99
- 24
- 6
- The triangle should be circled.
- ruler
- 2
- 65

Day 153

- $\frac{1}{2}$
- 89
- 11
- 7
- true
- 4
- rose
- $33 + 56 = 89$
 $56 + 33 = 89$
 $89 - 33 = 56$
 $89 - 56 = 33$

Day 154

- 3 groups of 2 circles should be circled.
- 59
- 22
- 37
- curtain or window
- The boys' room sign (left image)
-
- 46

Day 155

- 28
- 11
- 50
- X, Y
- The triangular base should be colored.
- 10
- 42
- 6:30 A.M.

Day 156

- $90 + 5$
- 99
- 24
- 7
- 3
- Saturday
- 40
- 620

ANSWER KEY *(cont.)*

Day 157

1. >
2. 98
3. 21
4. +
5. The circle and the oval should be colored.
6. 7
7. fish
8. 2

Day 158

1. 1 fox should be circled.
2. 86
3. 11
4. 2
5. the ball
6. more than 1 meter
7. \$20
8. 6

Day 159

1. eighty-five
2. 118
3. 22
4. 80
5. A circle should be drawn.
6. true
7. 18
8. 555

Day 160

1. 21st
2. 16
3. 15
4. 3 weeks
5. The rectangular prism should be circled.
6. the turtle
7. 6
8. yes

Day 161

1. 662
2. 103
3. 28
4. 70
5. cube or rectangular prism
6. 8:30
7. \$80
8. 15¢

Day 162

1. 80
2. 73
3. 9
4. 7
5. circle
6. the can of peaches
7. 19
8. 5

Day 163

1. $\frac{3}{6}$ or $\frac{1}{2}$
2. 91
3. 48
4. 7
5. 6; 6
6. 1
7. Chu: 5 flowers
Diggs: 6 flowers
8. 62

Day 164

1. 5
2. 93
3. 15
4. 47
5.  1 horizontal line should be drawn.
6. 10
7. no
8. 975

Day 165

1. 36
2. 19
3. 26
4. ←
5. cone (left image)
6. The clock should read 12:30.
7. 2
8. 5

Day 166

1. 8 tens, 0 ones
2. 95
3. 56
4. 9
5. 4
6. January
7. \$60
8. $89 - 47 = 42$

Day 167

1. 73, 173, 473, 673
2. 71
3. 19
4. 8
5. 8
6. 5
7. 22
8. 24 edges

Day 168

1. 5 lions should be circled.
2. 81
3. 18
4. 10
5. the toothpaste box
6. 2 m
7. 12
8. 5:00

Day 169

1. twenty-nine
2. 85
3. 9
4. 52
5. false
6. The clock should read 7:30.
7. 4
8. 72

ANSWER KEY *(cont.)*

Day 170

- 11th
- ninety-two
- 19
- 21
- trapezoid (center image)
- The cupcake should be circled.
- swimming
- 997

Day 171

- 840
- 15
- 59
- 74
- Any 1 rectangular surface should be colored.
- 2 hours
- 5
- 33

Day 172

- 30
- 71
- 8
- + or -
- oval
- smaller cup (left image)
- 
- 15

Day 173

- $\frac{4}{8}$ or $\frac{1}{2}$
- 104
- 15
- 14
- true
- spring
- 40
- $4\frac{1}{2}$ hours

Day 174

- 6 groups of 3 circles should be circled.
- 100
- 8
- 97
-  2 lines of symmetry should be drawn.
- 8
- \$15.00
- 22

Day 175

- 22
- 19
- 18
- 
-  One of the octagonal bases should be colored.
- 1
- \$65
- yes

Day 176

- 84
- 101
- 33
- 7
- no
- Wednesday
- 2
- \$20.00

Day 177

- =
- 65
- 27
- 3
- The triangle should be colored.
- 4
- \$24
- 21 feet

Day 178

- 3 baseballs should be colored.
- 98
- 24
- 15
- yes
- 60
- 160
- 99; 999; 10; 100

Day 179

- thirty-one
- 101
- 49
- 68
- rectangular prism (right image)
- the boat
- week 3
- \$4.00

Day 180

- 23rd
- 73
- 9
- 6, 12, 18, 24, 30, 36, 42, 48
- true
- cup
- 16
- \$3.00

NOTES

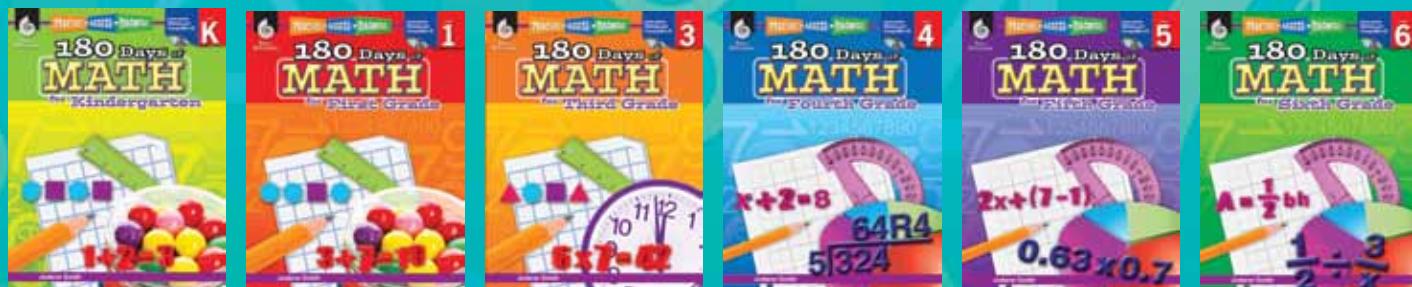

Provide quick and purposeful daily practice to build mastery in mathematics.

Reinforce grade-level skills and enhance students' mathematical proficiency using *Practice, Assess, Diagnose: 180 Days of Math for Second Grade*. This standards-based resource provides an engaging and purposeful practice page for every day of the school year. The practice pages follow a consistent format, and each key mathematical skill or concept is addressed daily. Use the included diagnostic tools to record evidence of student learning, assess student and class progress, and identify students' intervention or enrichment needs.

The mathematical skills targeted in this book include:

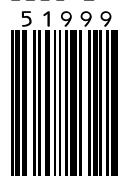

- Number Sense
- Addition
- Subtraction
- Algebraic Thinking
- Geometry
- Measurement
- Data Analysis
- Word and Logic Problems
- Mathematical Reasoning
